Dear Mr. Weisberg,
Thank you for your letter of 1/27 and J. McKinley. He is with Ph.I. D. News at the present on a trip and will be back in about a month. About S.S. I wrote to FBI and Attorney general and stoped in the office of Phila. FBI. It was a stone wall. I wrote to the greek Consulate in Wash.; they forwarded to N.Y. consul. They wrote they never heard about. But S.S. gave references of the greek dipl. corps. I sent a telegram to Ministry of foreign aff. in Athen, asking to refresh the memory of theire nuts in the consulates; no answere.
You tell me that British sketch of the magic bullet is primitive. But it shows the absurdity of the Warren report without reading of hundreds of pages of bla-bla-bla. In what of your books you pinpoint who was at the origine of the murders? To Buchanan says it clear. I am amazed that so many people who were involved in both Kennedy and King murders keep silence. It must be a very powerfull organisation behind

them. Why can you not publish your new material in a magazine? Not too many people buy a book. By the way J. Anderson who likes sensations never answered my letters about S. Σ. The Post (wash.) refused to print an add ~~xxx~~ in which I ~~was~~ looking for a historian and gave full name of S. Σ.

I suppose you got the copy of my letter to Commerce Dept, our letters crossed.

Very truly yours

N. Robins
